Coming to IIT Kanpur after doing a job felt like the only thing in the 2 years I will see is books and slides, but thanks to friends I found I was able to live whole lot than just the two years by calendar. The ambiance and the connection I shared with people of the college is one thing that can not be replaced forever. A message to all my friends at the end: "Stay connected and keep sharing the fun we had together at college till life carries us. The connection we shared with us is what that brings a smile on our faces whenever we relive those moments. "
